PROFILE

Full-stack developer with internship experience at IWS Solutions, freelance client delivery, and hands-on Agentic AI projects. Comfortable across the full stack — React, Node/Express, MongoDB, PostgreSQL, and Python — with a focus on integrating AI into real, usable products.

EXPERIENCE

- Web Developer Intern · IWS Solutions**Feb 2024 – Jan 2025
 - Built a MERN Bulk Product Editor with import/export, inline editing, and bulk price/category updates.
 - Delivered responsive UIs with React, Tailwind CSS, and ShadCN UI; worked with MySQL and RESTful APIs.
- Freelance Web Developer · Independent Clients**2023 – Present
 - Built a custom Wedding Website — RSVP form, event timeline, photo gallery, mobile-first layout.
 - Managed full project lifecycle from requirements to post-launch support.

AGENTIC AI PROJECTS

- Idea War — Multi-Agent Debate App** · *React.js · Groq SDK · Llama 3.3 70B · Mixtral 8x7B*
 - Two AI agents debate opposite sides of any user topic in real time using Groq-powered inference.
 - Features auto-flow mode, session history, and share/export — built entirely with React.js.
- Medical Report Analyzer — Dual-Agent Health Assistant** · *React.js · LLM APIs*
 - First AI agent parses and explains raw medical reports; a second AI suggests diet plans and general health recommendations.
 - Designed for both doctors and patients, with a clean clinical React UI.
- Personal AI Portfolio Assistant** · *React.js · Groq SDK · LLM Integration*
 - Recruiter-facing chatbot embedded in my portfolio that answers questions about my skills and projects in real time.
 - Migrated from Gemini to Groq for faster responses; live at [my-portfolio-three-iota-48.vercel.app](#)

OTHER PROJECTS

- Crypto Prediction App** · *MERN · Gemini AI · JWT · [github.com/TariqCO/cryptoPrediction](#)*
 - Predicts crypto price movements with real-time validation; Gemini AI generates plain-language market summaries.
 - JWT auth with refresh token rotation and protected route middleware.
- AI Code Reviewer** · *Node.js · Express · Gemini API · [github.com/TariqCO/ai-code-reviewer](#)*
 - Accepts any code snippet and returns structured feedback; Express backend handles Gemini API, rate limiting, and errors.
- Python CLI Suite** · *Python · OOP · [github.com/TariqCO/Python-Programme](#)*
 - Password Manager, Cab Reservation System, Store Management System — OOP, file I/O, real-world data structures.

SKILLS

Languages	JavaScript (ES6+), Python, HTML5, CSS3
Frontend	React.js, Tailwind CSS, ShadCN UI, Vite, Framer Motion
Backend	Node.js, Express.js, Socket.io, RESTful APIs
Databases	MongoDB (Mongoose), PostgreSQL, MySQL
Agentic AI	Groq SDK, LangChain, Multi-Agent Systems, LLM Integration, Prompt Engineering
AI / APIs	Google Gemini API, Llama 3.3 70B, Mixtral 8x7B

Auth	JWT, Refresh Tokens, bcrypt, RBAC
Tools	Git, GitHub, Postman, VS Code

EDUCATION

Diploma in Web Development with Python & Agentic AI
